

Welcome to The Pines

A Modern Steakhouse

This thoughtfully curated book is intended to complement the gourmet tale told by our culinary team, with an understanding that the perfect wine can elevate your experience and create lasting memories. While we could not be more proud to source the majority of the wine list from incredible vineyards both here in California and the Bordeaux region of France we also tip our hat to unique varietals and wines from emerging regions around the world.

In 2016 we began a mission to create the ultimate wine, spirits and dining destination in Southern California, with Collection 86 celebrating the 1986 opening of our property. We have proudly earned prestigious accolades from Wine Spectator, Forbes Travel Guide, and AAA.

All wines and spirits are stored in temperature-controlled cellars and then served or decanted in crystal stemware for optimal enjoyment.

From our hand-crafted cocktails, top-rated wine selections, and rare collection of spirits, there is something delicious for everyone. Let us guide you through the Collection 86 experience. Our passionate staff is here every evening to ensure that your visit is nothing short of spectacular.

– Francis Bacon

by the glass

This selection of wines-by-the glass have been meticulously chosen with a focus on pairing them perfectly with our food menu. The ingredients, preparation, and overall themes of each dish have been thoughtfully considered to create the best possible experience. Choosing the right wine to pair with red meat is not as simple as selecting a Cabernet Sauvignon. The leaner cuts require lighter styles of wine while sauces must also be taken into account. Additionally, the pairing of wine with sous vide dishes differs from grilled, sautéed, or stewed dishes. We grill our steaks over an open fire. With our menu featuring Japanese Wagyu and a variety of seafood, you will discover a range of wines beyond Napa Valley Cabernet Sauvignon to perfectly complement your meal.

*“Wine connects man and nature
and time in a way nothing else does.”*

– Hugh Johnson

getting started

The “Vitis Vinifera” grape, believed to have originated in modern-day Georgia, has been planted around the world to make wine. After its introduction to the Mediterranean, the Romans planted it throughout Europe, covering what we know as the “Old World” of wine. The journey of this little grape is fascinating because as it traveled the world, it adapted to new surroundings and climates by changing skin color, just as humans did. This resulted in the derivation of different wine cultures around the globe. The euphemism “what grows together, goes together” holds true in light of this. Just as humans traversed the globe, changed skin color, and adapted to new environments, the grape endured the same journey and adapted to the new cultures emerging globally. By enjoying wine from other parts of the world, we can share culture and tastes, bringing us all closer and teaching us to appreciate differences.

GILLIAN'S PICKS

Gillian Balance, one of the few female Master Sommeliers, has been a guiding light in the development of our story. It is with immense pleasure that we share her top rated selections and feature them here.

chapter 3

*“Only the unimaginative can fail
to find a reason for drinking champagne.”*

– Oscar Wilde

by the bottle

Champagne owes its existence to a serendipitous accident. After the grape harvest in Champagne, France, the wine would often fail to complete its fermentation due to the region's cold winter temperatures, which halted the yeast's activity. As a result winemakers would bottle the wine before fermentation was complete unwittingly setting off a secondary fermentation in the warmer temperatures of spring that increased the CO₂ levels in the bottles. Regrettably, the weak French glass bottles of the time could not withstand the pressure, causing many to explode. Winemakers initially regarded this as a sign of poor fermentation. When English winemakers started using stronger glass bottles with reinforced punts, they were able to contain the pressure and capture the effervescence that had been eluding them. This discovery transformed Champagne into the epitome of luxury that it remains to this day. Eventually, thanks in part to studies conducted by Madam Clicquot of the Champagne house Veuve Clicquot, Champagne producers developed the *Méthode Traditionnelle* perfecting the process of a second fermentation in the bottle.

champagne – tête de cuvée and prestige

“The ‘tête de cuvée’ or ‘head blend’ are the very best representation of vineyards and house style(s) for each producer, and are made in only the finest years, hence the rarity of these sublime Champagnes. Many are aged on the lees for years longer than the laws require, giving these wines great richness and complexity.”

champagne – tête de cuvée and prestige cont'd...

"In 1876, the Champagne house of Louis Roederer created "Cristal" – the entire production of this rare champagne went exclusively to Tsar Alexander II, hence the tamper-proof crystal clear bottle. ... Today, the house of Louis Roederer still produces Cristal only in exceptional years... the wine undergoes extensive ageing (7 years), before release, resulting in a smooth Champagne of unrivaled richness and complexity. Even more rare, is the Cristal Vinothèque which ages for close to twenty years prior to disgorgement, proving this tremendous wines incredible ability to improve with age."

red burgundy

"Vines have been cultivated in the region of Burgundy since the 1st century. The narrow escarpment in the north, known as the "Côte d'Or" or Golden Slopes, is where Pinot Noir and Chardonnay reach their ultimate expression with captivating aromas and flavors that seize the senses. The region is very small and split into the Côte de Nuits and Côte de Beaune. The best grapes come from Grand Cru Vineyards and the next best come from Premier Cru Vineyards with the Grand Cru vineyards contributing to just 3% of total production. The wines of Burgundy can be hard to come by. From the village to Grand Cru wines these selections are from top-rated producers and vintages."

"Known as the first AVA in California, Napa Valley AVA was established in 1981 and only produces 4% of California wines. Napa Valley now includes 16 sub-AVA's. Napa has a very rare Mediterranean climate which is the perfect climate that offers a long hang season and moderate summers. The success of Napa Valley as a whole was not solidified until the Judgement of Paris in 1976-a blind tasting between top French Châteaux and Domains and top wines from Napa Valley selected by Steven Spurrier. The tasting ended in the top prize in both red and white categories going to Napa Valley. This tasting was adopted by the State of California as an official historical event and proved the Napa Valley idiom, "if one of us succeeds, we all succeed."

Meteor Vineyard is a collaborative project of vineyard proprietor Barry Schuler and longtime Napa Valley winemakers Bill and Dawnine Dyer. Located on a knoll in Napa Valley's Coombsville appellation, their vineyard benefits from a unique combination of elevation, aspect and stony, rich volcanic soil, which produces Napa Valley's most distinctive Cabernet Sauvignon. They produce just two wines, both exclusively made from 100% estate-grown exceptional Cabernet Sauvignon. Additionally, as the wines are made for the long term, a complete library is available that spans from the inaugural 2005 vintage onwards, allowing wine enthusiasts to explore the full evolution of the exceptional Cabernet Sauvignon.

THE cult wine, screaming eagle

"In 1986, the same year San Manuel's Bingo hall opened, Jean Phillips purchased the land and planted the 56-acre Screaming Eagle vineyard. Phillips had no idea that this special piece of Oakville dirt, coupled with the extraordinary talents of winemaker Heidi Barrett would create a wine and cult phenomenon in Napa Valley. The inaugural 1992 vintage scored 99 points with several perfect 100 point scores to follow. Decades later, quantities are small and it is still one of the world's most sought-after wines..."

"Oenologists love to talk about Phylloxera and the devastation it caused. It is rare that we get to imagine the world without the louse that destroys grapevines. Scarecrow, however, offers us the window into this world. Planted in 1945, by JJ Cohn, the original Scarecrow vineyard planted on St George rootstock was never affected. These 'Old Men' vines are at the heart of this wine made by Winemaker Celia Welch. Named Scarecrow in homage to Cohn, the producer of the original Wizard of Oz film. These old vines produce wines of power and strength, floral nuance and a silky palate. As close as you can get to Bordeaux Grand Cru in Napa."

“Cardinale is a limited-production blend from Napa Valley’s most recognized mountain appellations, including Diamond Mountain, Howell Mountain, Mount Veeder, and Spring Mountain. Each parcel is aged separately to build unique complexities and are blended just before bottling. The different appellations are allowed to tell their stories clearly this way. Mountain terroir is essential to Cardinale’s profile even though the rocky soils, steep aspects and exposed conditions are among the most challenging in California. Each of our esteemed mountain vineyards creates a beautiful note onto itself, but the composition they create together results in a remarkable symphony of flavor, texture and complexity resulting in the most structured, masculine and complex wines.”

“The Right Bank of the Gironde River produces round, richly textured wines. Dominated by Merlot and Cabernet Franc these wines drink well young and age remarkably. Here you will find some of the most sought after Bordeaux in the world. Top producers rival the First Growths from the other side of the river in quality and price.”

rhône valley

Running along the Rhône river the Rhône valley has a north and a south end. Northern Rhône only produces one red grape -Syrah - which is savory and full bodied but elegant. Appellations like Côte-Rôtie and Hermitage produce this stunning wine. The south is dominated by Grenache, but also blended with syrah and mourvedre along with 12 other grape varieties. Wines from the Southern Rhône are warmer with brighter notes and higher alcohol content. Châteauneuf-du-Pape is the most famous of the southern blends.

spirits list

The Old Fashioned is more than just a cocktail - it is a fascinating piece of history that has endured for centuries. Legend has it that its origin dates back to the late 1700's, when patrons would request a spirit "the old-fashioned way" with added bitters and sugar. This simple request eventually evolved into one of the most iconic cocktails in history. The first official recipe for the cocktail was published in the 1862 book "Bartenders Guide", and featured Holland Gin prepared with bitters and a sugar cube, garnished with a lemon peel. In 1895, the first Old Fashioned made with whiskey was documented in George Kappeler's book Modern American Drinks, using rye whiskey. Over the next century, this cocktail would go through a series of transformations, with bright fruit, soda water, and higher levels of sugar being added to the mix. Despite these changes, the classic Old Fashioned recipe has mostly remained intact, and it is now a must-have on every cocktail list. With its rich history and timeless appeal, the Old Fashioned remains a beloved cocktail that's sure to impress any cocktail connoisseur.
